Safety Instructions

Read these safety instructions carefully before use. Keep the safety instructions in a safe place.

Check the product for possible transport damage after unpacking. Only use undamaged material.

This product is intended for use as part of an orthopedic fitting by a trained orthopedic technician.

⚠️ Safety

- To ensure correct use of the product, follow the instruction manual.
- Do not use accessories other than those intended for the product. Only use those accessories in the intended manner.
- Do not use on broken skin. Before use, clarify the sensitivity to pressure of the person you are measuring and take that into account when measuring.
- Avoid bruising or pinching skin and limbs during use, especially when using the Scaleo measuring legs and the ramus angle attachment.
- Check product for possible damage and sharp edges before every use.
- To ensure proper function, do not exceed the maximum length dimensions given in the instruction manual.
- Do not continue to use the product in case it gets damaged, but contact us. Independent repairs or modifications impair the function and safety of the product.
- Only transport the product and accessories in the product packaging provided for this purpose.
- In the event of misuse, incorrect operation or improper repair, no liability will be assumed for possible resulting damages.
- Packaging materials, such as plastic bags, do not belong in children’s hands.
- This product is not intended to be used by persons (including children) with reduced physical, sensory or mental capabilities.
- This product is not intended to be used by persons lacking experience and/or knowledge with/of the product. Such persons may only use the product if they are supervised by a person responsible for their safety or have received instructions from said person on how to use the product.

Materials

- Polyacrylics, biocompatible according to DIN EN ISO 10993-1
- Stainless steel
- Aluminum

Product Care/Cleaning/Maintenance

- Clean product after every use.
- Wipe surfaces with a damp cloth using hot water and mild soap or detergent (pH neutral).
- Remove residual moisture with a dry cloth and allow to air dry completely.
- Disinfect any surfaces that come into contact with users or the person being measured.

Storage/Disposal

- Only store and use product in an environment with temperatures between -10 °C and +60 °C.
- Store product in the original packaging and protect from dust, dirt and moisture.
- Dispose of the outer box in an environmentally friendly manner after unpacking the product.
- The product does not contain any environmentally hazardous substances and can be disposed of with household waste.
